

# Jibe Insights

*Realize the Power of Data-Driven Recruiting*

## Recruiting Analytics Made Easy

Jibe Insights is a recruiting analytics tool that enables you to make better recruiting decisions – and ultimately better hires – by seeing your data quickly and clearly. Jibe Insights highlights your most important hiring metrics, presenting your data personalized just for you. Say goodbye to unmanageable spreadsheets and time-consuming reports. View your key metrics in one simple dashboard, and become a data-driven recruiter with Jibe Insights.

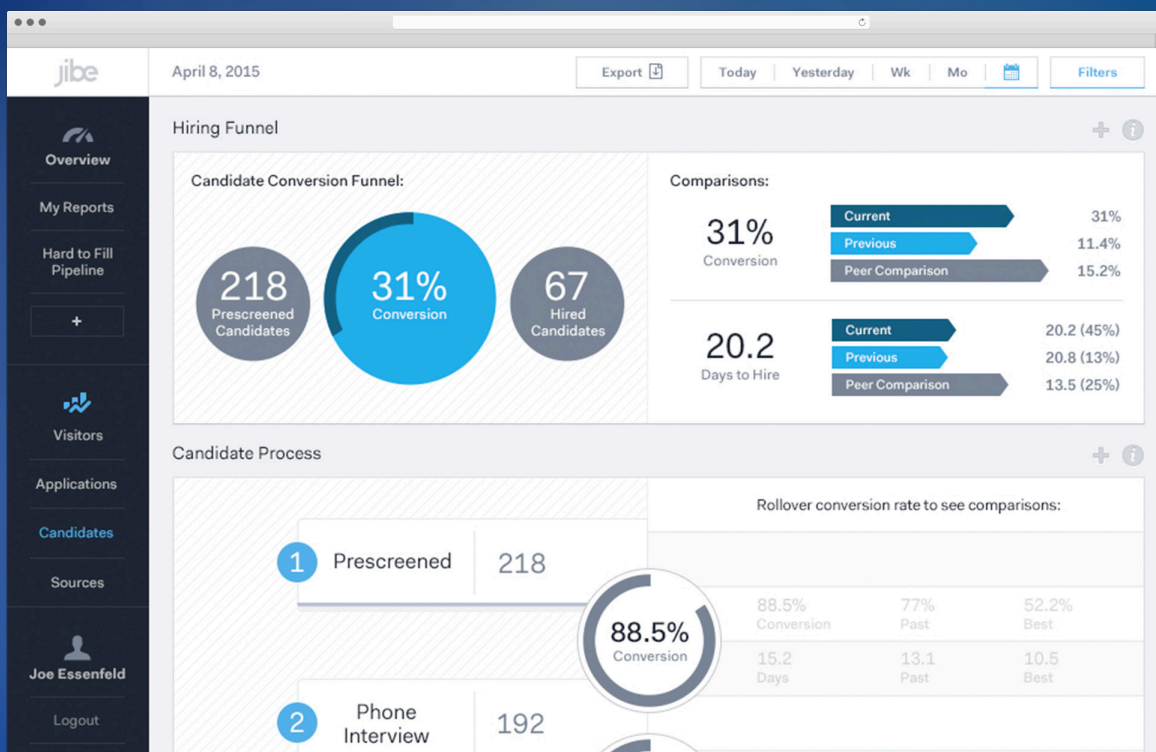

## Make Smarter Decisions

Jibe Insights gives you the ability to measure and monitor your talent acquisition efforts. With our easy to read dashboards, you are able to accurately track source performance, get a complete view of your hiring pipeline, and see the data that is most important to you. Jibe Insights also enables you to identify bottlenecks in the hiring funnel and gauge ROI on recruitment marketing spend so that you can make better strategic decisions.

# Insights at Your Fingertips

The clean, intuitive dashboards within Jibe Insights are configurable by each individual user and accessible via any device, ensuring you get the data you need, when and where you need it. It's like having a data analyst with you at all times.

Jibe Insights pulls recruiting data from multiple systems, unifies it, and presents it in simple dashboards. You'll see only the data you need to get a complete and accurate picture of your recruiting efforts. You'll not only have unmatched, actionable intelligence at your fingertips at all times, you'll have it instantly.

Launched in 2009, Jibe provides cloud-based recruiting technology that makes recruiting about people, not process. Jibe's mandate is simple — to empower talent acquisition professionals to identify, attract and engage the best talent on the planet. That means enabling companies to provide a superior experience to potential employees and equipping talent acquisition teams with valuable insights that drive smarter decision-making.
